☐ **5-year declining balance.**

Available to:

- Non-Designated beneficiaries, if the IRA owner passed away prior to reaching their required beginning date for RMDs.

☐ **10-year declining balance.**

Payments are calculated by dividing the balance of each fund on the distribution run date by the remaining number of payments. The number of payments will be based on the original start date and frequency selected in section I-1 and the end date (i.e., the year representing the 10th anniversary of the original IRA owner's death). Consult a tax professional to ensure the distributions meet the minimum requirements.

Available to:

- Qualified See-Through Trusts. Certain see-through trusts may be eligible for this distribution election. Please consult a tax and/or legal professional to determine eligibility.

Note: If the IRA owner died on or after their required beginning date for RMDs, life expectancy payments are required for each of the nine years, beginning in the year after death. Clipper Fund cannot guarantee that payments under this election will satisfy the minimums required by the IRS. Thus, it is your responsibility to 1) ensure the minimum required amounts are satisfied annually and 2) if necessary, contact the Fund to distribute any shortfall in a given year.

☐ **Single life expectancy.**

Payments are calculated using the IRS Single Life Expectancy Table and must begin by December 31st of the year following the year of the IRA owner's death.

By choosing this election I affirm that 1) I have consulted with a qualified tax and/or legal professional and 2) the trust meets any and all requirements for life expectancy distributions to be made using the trust beneficiary's date of birth below.

J. FEDERAL AND STATE WITHHOLDING ELECTION

Federal Tax Withholding:

The distributions you receive from your IRA are subject to a default federal income tax withholding rate of 10%. For Roth IRAs only, a default federal income tax withholding rate is not applied.

You can choose to have a different rate by entering a rate between 0% and 100% in the box below. Generally, you can't choose less than 10% for payments to be delivered outside of the United States and its possessions, or if your only address of record is a P.O. Box.

By providing a withholding percentage below and signing this distribution form, you acknowledge that you have read the attached IRS Form W-4R, including the complete instructions on page 1 and 2, the Marginal Rate Tables, and you would like a rate of withholding different from the default withholding rate.

Important: The instructions and Marginal Rate Tables on the attached sample IRS Form W-4R are valid for the tax year shown in the upper right corner of the Form W-4R. If you are submitting this distribution form in a subsequent calendar year, please see [irs.gov](https://www.irs.gov) for the most current version of Form W-4R.

I want federal income tax withheld at the rate of
 %.*

Important: If you do not provide a rate in the box above, the default withholding rate of 10% will be applied to your distribution (does not apply to Roth IRAs).

**Please note that the withholding rate designation made above supersedes any previous designations. If you elect not to have withholding applied to your distributions, or if you do not have enough federal income tax withheld from your distributions, you may be responsible for payment of estimated tax. You may incur penalties under the estimated tax rules if your withholding and estimated tax payments are not sufficient.*

State Tax Withholding:

If federal income tax withholding is applied to your distribution, your state may also require state income taxes to be withheld. State laws regarding tax withholding are subject to change at any time without notice.

If your state requires withholding, Clipper Fund will withhold at least the required minimum state tax, regardless of your election. Please see the State Tax Withholding Information page for additional information.

Clipper Fund offers state tax withholding for the following states:

AR, AZ, CA, CT, DE, DC, IA, KS, ME, MD, MA, MI, MN, MS, NE, NC, OK, OR, VT and VA.

Choose one:

- ☐ Do NOT withhold state taxes unless required by law.

2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and

M. ADDITIONAL INFORMATION

Important: A beneficiary who fails to take a required minimum distribution (RMD) in any tax year or satisfy the distribution requirements of the 10-year rule may be subject to a 25% excess accumulations tax imposed by the IRS. If corrected timely, the excise tax will be reduced to 10%.

Beneficiary Types:

Eligible Designated Beneficiary (EDB) is a:

- surviving spouse
- account owner's child who has not reached age of majority
- an individual that is disabled under section 72(m)(7) of the Internal Revenue Code or chronically ill as defined under section 7702B(c)(2) individual, or
- an individual who is older or not more than 10 years younger than the deceased IRA owner.

Designated Beneficiary is an individual that is not considered an EDB.

Non-Designated Beneficiary is a non-person, estate, charity, corporation or non-qualifying trust.

Successor Beneficiary is the beneficiary of assets held in an Inherited IRA.

First Generation Beneficiary Qualified Trust is a trust that is considered to be a qualified "look-through" trust as defined by applicable Treasury regulations. A trust can only be considered qualifying when the trust meets all of the following criteria:

- Is irrevocable, or becomes irrevocable upon the death of the owner
- Has an identifiable beneficiary or beneficiaries
- Is valid under state law, or would be valid except there is no corpus

Distribution Options (for deaths on or after 1/1/2020):

Single Life Expectancy Payments – Payments must begin by December 31st of the year following the year of the IRA owner's death and are calculated using the IRS Single Life Expectancy table. Calculations are based on either the beneficiary's or the IRA owner's age.

10-Year Rule – Assets must be distributed by December 31st of the year containing the 10th anniversary of the original owner's death. If the original owner died prior to reaching their required beginning date for RMDs, no minimum annual distributions are required by the beneficiary. If the original owner died on or after reaching their required beginning date for RMDs, life expectancy payments are required in years 1-9, beginning in the year after death. The account must be fully distributed by December 31st of the 10th year. The IRS waived the penalty for RMD failures for designated beneficiaries subject to the 10-year rule who failed to take life expectancy payments in years 2021-2024. This waiver, though, did not extend the beneficiary's original 10-year clock. Thus, the account would still need to be fully distributed by December 31st of the year containing the 10th anniversary of the original owner's death.

The trustee of a qualified "see-through" trust may choose any of the following options to satisfy the 10-Year Rule requirement: 1) take distributions on-demand throughout the ten-year period, 2) establish a fixed-dollar or fixed-percentage withdrawal plan, or 3) establish a fixed-time withdrawal plan (i.e., 10-year declining balance payments). It is the trustee's responsibility to ensure any minimum annual payments are satisfied and that the account is fully depleted by December 31 of the tenth year.

5-Year Rule – Assets must be distributed by December 31 of the year containing the 5th anniversary of the IRA owner's death.

The distribution options below apply to Traditional, Roth, SEP, and SIMPLE IRA beneficiaries. Roth IRA owners are always treated as having been deceased prior to their Required Beginning Date (RBD). Please refer to the "Before RBD" columns for Roth IRA distribution options.

Individuals born on July 1, 1949 and before January 1, 1951: The RBD is April 1st of the year following attainment of age 70.

Individuals born after December 31, 1950 and before January 1, 1960: The RBD is April 1st of the year following attainment of age 73.

¹ This option is available to certain qualified "see-through" trusts. Please consult with a tax and/or legal professional to determine if the trust is eligible for this distribution option.

Future developments. For the latest information about any future developments related to Form W-4R, such as legislation enacted after it was published, go to www.irs.gov/FormW4R.**Purpose of form.** Complete Form W-4R to have payers withhold the correct amount of federal income tax from your nonperiodic payment or eligible rollover distribution from an employer retirement plan, annuity (including a commercial annuity), or individual retirement arrangement (IRA). See page 2 for the rules and options that are available for each type of payment. Don't use Form W-4R for periodic payments (payments made in installments at regular

intervals over a period of more than 1 year) from these plans or arrangements. Instead, use Form W-4P, Withholding Certificate for Periodic Pension or Annuity Payments. For more information on withholding, see Pub. 505, Tax Withholding and Estimated Tax.

Caution: If you have too little tax withheld, you will generally owe tax when you file your tax return and may owe a penalty unless you make timely payments of estimated tax. If too much tax is withheld, you will generally be due a refund when you file your tax return. Your withholding choice (or an election not to have withholding on a nonperiodic payment) will generally apply to any future payment from the same plan or IRA. Submit a new Form W-4R if you want to change your election.**2025 Marginal Rate Tables**

You may use these tables to help you select the appropriate withholding rate for this payment or distribution. General Instructions (*continued*)

Nonperiodic payments—10% withholding. Your payer must withhold at a default 10% rate from the taxable amount of nonperiodic payments **unless** you enter a different rate on line 2. Distributions from an IRA that are payable on demand are treated as nonperiodic payments. Note that the default rate of withholding may not be appropriate for your tax situation. You may choose to have no federal income tax withheld by entering “-0-” on line 2. See the specific instructions below for more information. Generally, you are not permitted to elect to have federal income tax withheld at a rate of less than 10% (including “-0-”) on any payments to be delivered outside the United States and its territories.

Note: If you don’t give Form W-4R to your payer, you don’t provide an SSN, or the IRS notifies the payer that you gave an incorrect SSN, then the payer must withhold 10% of the payment for federal income tax and can’t honor requests to have a lower (or no) amount withheld. Generally, for payments that began before 2025, your current withholding election (or your default rate) remains in effect unless you submit a Form W-4R.

Eligible rollover distributions—20% withholding. Distributions you receive from qualified retirement plans (for example, 401(k) plans and section 457(b) plans maintained by a governmental employer) or tax-sheltered annuities that are eligible to be rolled over to an IRA or qualified plan are subject to a 20% default rate of withholding on the taxable amount of the distribution. You can’t choose withholding at a rate of less than 20% (including “-0-”). Note that the default rate of withholding may be too low for your tax situation. You may choose to enter a rate higher than 20% on line 2. Don’t give Form W-4R to your payer unless you want more than 20% withheld.

Note that the following payments are **not** eligible rollover distributions for purposes of these withholding rules:

- Qualifying “hardship” distributions;
- Distributions required by federal law, such as required minimum distributions;
- Distributions from a pension-linked emergency savings account;
- Eligible distributions to a domestic abuse victim;
- Qualified disaster recovery distributions;
- Qualified birth or adoption distributions; and
- Emergency personal expense distributions.

See Pub. 505 for details. See also *Nonperiodic payments—10% withholding* above.

Payments to nonresident aliens and foreign estates. Do not use Form W-4R. See Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities, and Pub. 519, U.S. Tax Guide for Aliens, for more information.

Tax relief for victims of terrorist attacks. If your disability payments for injuries incurred as a direct result of a terrorist attack are not taxable, enter “-0-” on line 2. See Pub. 3920, Tax Relief for Victims of Terrorist Attacks, for more details.

Specific Instructions

Line 1b

For an estate, enter the estate’s employer identification number (EIN) in the area reserved for “Social security number.”

Line 2

More withholding. If you want more than the default rate withheld from your payment, you may enter a higher rate on line 2.

Less withholding (nonperiodic payments only). If permitted, you may enter a lower rate on line 2 (including “-0-”) if you want less than the 10% default rate withheld from your payment. If you have already paid, or plan to pay, your tax on this payment through other withholding or estimated tax payments, you may want to enter “-0-”.

Suggestion for determining withholding. Consider using the Marginal Rate Tables on page 1 to help you select the appropriate withholding rate for this payment or distribution. The tables are most accurate if the appropriate amount of tax on all other sources of income, deductions, and credits has been paid through other withholding or estimated tax payments. If the appropriate amount of tax on those sources of income has not been paid through other withholding or estimated tax payments, you can pay that tax through withholding on this payment by entering a rate that is greater than the rate in the Marginal Rate Tables.

The marginal tax rate is the rate of tax on each additional dollar of income you receive above a particular amount of income. You can use the table for your filing status as a guide to find a rate of withholding for amounts above the total income level in the table.

To determine the appropriate rate of withholding from the table, do the following. Step 1: Find the rate that corresponds with your total income not including the payment. Step 2: Add your total income and the taxable amount of the payment and find the corresponding rate.

If these two rates are the same, enter that rate on line 2. (See *Example 1* below.)

If the two rates differ, multiply (a) the amount in the lower rate bracket by the rate for that bracket, and (b) the amount in the higher rate bracket by the rate for that bracket. Add these two numbers; this is the expected tax for this payment. To get the rate to have withheld, divide this amount by the taxable amount of the payment. Round up to the next whole number and enter that rate on line 2. (See *Example 2* below.)

If you prefer a simpler approach (but one that may lead to overwithholding), find the rate that corresponds to your total income including the payment and enter that rate on line 2.

Examples. Assume the following facts for *Examples 1* and *2*. Your filing status is single. You expect the taxable amount of your payment to be \$20,000. Appropriate amounts have been withheld for all other sources of income and any deductions or credits.

Example 1. You expect your total income to be \$65,000 without the payment. Step 1: Because your total income without the payment, \$65,000, is greater than \$63,475 but less than \$118,350, the corresponding rate is 22%. Step 2: Because your total income with the payment, \$85,000, is greater than \$63,475 but less than \$118,350, the corresponding rate is 22%. Because these two rates are the same, enter “22” on line 2.

Example 2. You expect your total income to be \$61,000 without the payment. Step 1: Because your total income without the payment, \$61,000, is greater than \$26,925 but less than \$63,475, the corresponding rate is 12%. Step 2: Because your total income with the payment, \$81,000, is

greater than \$63,475 but less than \$118,350, the corresponding rate is 22%. The two rates differ. \$2,475 of the \$20,000 payment is in the lower bracket (\$63,475 less your total income of \$61,000 without the payment), and \$17,525 is in the higher bracket (\$20,000 less the \$2,475 that is in the lower bracket). Multiply \$2,475 by 12% to get \$297. Multiply \$17,525 by 22% to get \$3,856. The sum of these two amounts is \$4,153. This is the estimated tax on your payment. This amount corresponds to 21% of the \$20,000 payment (\$4,153 divided by \$20,000). Enter "21" on line 2.
